Step Three: Selecting your photos

First, please select the photo(s) you would like on the page. You select these photos by clicking in the corresponding small boxes right below the left-hand corner of each image that you want. (You can select as many as you wish.)

Please note also that there may be multiple pages of photos, so please check the upper or lower right-hand corners of the page, where you can click to go on to another page.

You can make each image larger by clicking on it. Once it is enlarged, you can continue viewing enlarged photos by clicking on an arrow just above the top right-hand corner of the displayed pictures, or you can click on the enlarged photo to return to this 1 of 26 (the "thumbnail") page.

Step Four: What do you want to buy?

Once you have selected the photo(s) you want, please turn your attention to the left-hand portion of the page. There, you will find a list of possible items to purchase.

- If you click on "Browse Store," a long list of gift items appears — items including posters, photo books, calendars, mugs and clothing, among many others.
- If you click on "Cards," you will find instructions about order many kinds of greeting cards.
- If you click on "Prints," you can continue with ordering prints.

A bit about cropping — Please note that DotPhoto.Com's default setting is to crop all photos.

All of the photos posted for the Competition of Excellence are uploaded at a 4x6 size. Therefore, if you are ordering 4x6 images, it does not matter if you select cropping (or not cropping). The photos would look the same in either case.

If, however, you are selecting pictures in a different size, then please click on the "Crop" button to see what your photo would look like in that different size. If you do not like the photo in its cropped version, please "unselect" crop, and you will receive your photo as a complete image with white spaces filling the picture to the specific size you have requested.
